X-Terra Resources Corporation

(an exploration stage company)

Notes to Interim Consolidated Financial Statements

As at March 31, 2009 and December 31, 2008

1 Nature of operations

X-Terra Resources Corporation (the “Company”), an exploration stage company, is in the business of acquiring, exploring and developing mining and energy properties. It has interests in properties at the exploration stage located in Canada.

The Company is in the process of exploring its mining and oil and gas property interests and has not yet determined whether they contain mineral deposits that are economically recoverable. The Company will periodically have to find additional funds to continue its exploration activities, and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future.

Until it is determined that properties contain mineral reserves or resources that can be economically mined, they are classified as exploration properties. The recoverability of deferred exploration expenses is dependent on the discovery of economically recoverable reserves and resources; securing and maintaining title and beneficial interest in the properties; the ability to obtain necessary financing to continue the exploration and development of its properties; and future profitable production or proceeds from the disposal of properties.

As at March 31, 2009, the Company holds the Lindsay, Cool Lake, Rimouski, Rimouski North and Shawinigan properties and has cash and cash equivalents totalling \$4,176,121 and working capital of \$4,811,663. All dollar amounts are disclosed in Canadian currency.

2 Going concern assumption

These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles (“GAAP”) on a going concern basis whereby it is assumed that the Company will realize its assets and assume its liabilities in the normal course of business.

The Company is in the process of exploring its mining and oil and gas properties and has not yet determined whether these properties contain ore reserves. The recoverability of the amounts shown for mining and oil and gas properties and related deferred exploration expenses is dependent on the ability of the Company to obtain the necessary financing to complete exploration and development and on future profitable production or proceeds from the disposal of properties. The Company will have to raise additional funds to complete the development phase of its programs, and while it has been successful in doing so in the past, there can be no assurance that it will be able to do so in the future. The application of GAAP on a going concern basis may be inappropriate since there is a significant doubt as to the going concern assumption.

The consolidated financial statements do not reflect the adjustments to the carrying value of assets and liabilities, the reported amounts of revenues and expenses and the classification of balance sheet items if the going concern assumption were inappropriate, and these adjustments could be material.

3 New accounting policies

Accounting standards newly adopted

Effective January 1, 2009, the Company adopted a new accounting standard related to goodwill and intangible assets that was issued by the Canadian Institute of Chartered Accountants (“CICA”). The new CICA standard is as follows:

Section 3064, Goodwill and Intangible Assets

In February 2008, the CICA issued Section 3064, *Goodwill and Intangible Assets*, which replaces Section 3062, *Goodwill and Other Intangible Assets*. This new Section provides guidance on the recognition, measurement, presentation and disclosure of goodwill and intangible assets. The new Section specifically excludes mining activities related to prospecting, acquisition of mineral rights, exploration, drilling and mineral development from being considered as intangible assets, as existing Section 3061, *Property, Plant and Equipment*, contains standards for measurement, presentation and disclosure of mining properties. Adoption of this standard did not have any effect on financial statements.

EIC-173, Credit risk and the fair value of financial assets and financial liabilities

In January 2009, the CICA issued EIC-173, *Credit risk and the fair value of financial assets and financial liabilities*. The EIC provides guidance on how to take into account credit risk of an entity and counterparty when determining the fair value of financial assets and financial liabilities, including derivative instruments. This EIC applies to interim and annual financial statements relating to fiscal years beginning on or after January 1st, 2009. Adoption of this EIC did not have any effect on financial statements.

EIC-174, Mining exploration costs

In March 2009, the CICA issued EIC-174, *Mining exploration costs*. The EIC provides guidance on the accounting and the impairment review of exploration costs. This EIC applies to interim and annual financial statements relating to fiscal years beginning on or after January 1st, 2009. Adoption of this EIC did not have any effect on financial statements.

4 Short-term investments

The portfolio investments consist of common shares of a publicly held company that are available for sale and are recorded at fair value and warrants of a publicly held company that are held for trading and are recorded at fair value.

	March 31, 2009 \$	December 31, 2008 \$

Fair value of short-term investments	70,000	91,716
	<u>660,000</u>	<u>851,716</u>

* These investments are the result of a transaction completed on October 28, 2008 between the Company and Brownstone Ventures Inc. ("Brownstone") to which the Company sold a 50% interest in exploration licences in exchange for 2,000,000 common shares and 2,000,000 common share purchase warrants. Each purchase warrant entitles the Company to purchase one common share of Brownstone at a price of \$2.00 until October 28, 2010. The exploration licences sold are related to the Rimouski, Rimouski North and Shawinigan mining and oil and gas properties (note 6).

The fair value of warrants is determined through the use of Black-Scholes pricing models as they are not traded on any public stock exchange.

For the three months period ended March 31, 2009, the Company recognized an unrealized loss of \$210,500 on common shares of a public company designated as available for sale in other comprehensive income and a \$34,316 unrealized loss on warrants of a public company classified as held for trading was included in net income for the year.

8 Share capital and warrants and brokers' options

Capital management

The Company defines its capital as shareholders' equity. Its capital management objectives are to:

- have sufficient capital to be able to complete the Company's mining and oil and gas property exploration and mining development plan in order to ensure the growth of its activities; and
- have sufficient cash to fund exploration expenses, investing activities and working capital requirements.

As at March 31, 2009, the capital of the Company consists of shareholder's equity amounting to \$6,534,817.

⁽¹⁾ At the beginning of January 2009, 50,000 shares have been cancelled which shares have been repurchased in December 2008. For the three months period ended March 31, 2009, the Company repurchased 200,000 of its own shares for cancellation for a cash consideration of \$48,500, in connection with its normal course issuer bid. Share capital has been reduced by the average issue price per share before buy-back of \$2.13 totalling \$533,343, of which \$484,843 has been charged to contributed surplus.

⁽²⁾ In connection with the transaction with Brownstone, the Company issued 150,000 units to PowerOne Capital Markets Limited ("PowerOne") as finder's fee on February 10, 2009. Each unit is comprised of one common share of the Company and one common share purchase warrant. Each purchase warrant entitles PowerOne to purchase an additional common share of the Company. The fair value of the brokers' warrants was estimated using the Black-Scholes pricing model, based on the following assumptions: dividend yield of nil, volatility of 110%, risk-free interest rate of 1.18% and an expected life of two years. As a result, the fair value of the warrants was estimated at \$8,100 and recorded as transaction costs in short-term investments (note 4) as well as the value of the 150,000 shares issued to Powerone at the market price of \$0.30 per share for \$45,000 recorded as transactions costs in short-term investments (note 4) and allocated to available-for-sale and held for trading investments for \$40,500 and \$4,500 respectively.

Information relating to warrants and brokers' options outstanding as at March 31, 2009 is as follows:

Notes to Interim Consolidated Financial Statements

As at March 31, 2009 and December 31, 2008

13 Subsequent events

- a) In April 2009, the Company purchased 120,500 common shares at an average price of \$0.38 in the course of the normal course issuer bid. In the same vein, X-Terra has announced the completion of its normal course issuer bid through the facilities of the TSX Venture Exchange. Under the bid, X-Terra repurchased for cancellation 612,000 shares out of the permitted maximum of 612,250 common shares over an eight-month period, representing approximately 5% of the "public float" of X-Terra's shares at the commencement of the normal course issuer bid. The 612,000 shares were repurchased by X-Terra at an average price of \$0.34.

- b) In May 2009, the Company has announced that it has applied to the TSX Venture Exchange for a one-year extension of the term of 650,000 common share purchase warrants that were issued by X-Terra as part of a private placement in May 2007 and the TSX Venture Exchange has accepted this extension on May 20, 2009. Each warrant currently entitles its holder to purchase one additional common share of X-Terra at an exercise price of \$0.70 until May 28, 2009. Now, the term of the warrants is extended to May 28, 2010, for a total term of three years. X-Terra issued a total of 1,000,000 warrants in the May 2007 private placement, of which 350,000 warrants have to date been exercised.
